### DETAILED ACTION

1. In response to applicant's telephone inquiry of the claims regarding the last Office action, the following corrective action is taken.

The period for reply of 3 MONTHS set in said Office Action is restarted to begin with the mailing date of this letter.

2. A new Office Action is enclosed to include the claims in the Preliminary Amendment filed on January 4, 2005.

### *Drawings*

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, **the at least one strut and at least one transverse limb extending transversely to said strut (claim 20) and said at least one strut comprises a plurality of substantially vertical struts (claim 4)** must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an

Art Unit: 3612

application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Objections***

4. Claims 2-19 and 21-23 are objected to because of the following informalities:

Regarding claim 2, "The assembly" (line 1) needs to be changed to --The instrumental holder assembly--. *See same deficiency in claims 3-19 and 21-23.*

Appropriate correction is required.

***Allowable Subject Matter***

5. Claims 2-23 are allowed.

6. The following is a statement of reasons for the indication of allowable subject matter:

The recitations of the specific features of the instrument holder assembly in claim 20 including especially the construction of each of the upper shell and the lower shell comprising at least one respective reinforcement profile is not taught nor is fairly suggested by the prior art of record.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lori L. Lyjak whose telephone number is 571-272-6658.

The examiner can normally be reached on Monday-Friday 7:30am-4:00pm.
